Panga Naresh

AI - Machine Learning Trainee

Portfolio: [MathtoData.com](https://mathtodata.com)
github.com/nareshyadav20
linkedin.com/in/naresh-yadav/

Computer Science and Data Science undergraduate (2026). Motivated AI Machine Learning fresher with strong foundation in Python, data analysis, and machine learning concepts. Passionate about building intelligent systems and applying AI to solve real-world problems. Seeking an entry-level AI/ML Developer role.

EXPERIENCE

Artificial Intelligence Programmer Intern ReatchAll Private Limited · Internship

Mar 2026 – Present · Hyderabad, Telangana · On-site

Working as an AI Programmer Intern at ReatchAll Private Limited, contributing to the development of AI-powered applications, automation systems, and scalable backend solutions for real-world business use cases.

Key Contributions Responsibilities:

Developing AI-driven chatbot systems and intelligent virtual assistants for customer interaction and business automation. Building voice-enabled AI agents using NLP and speech-processing concepts. Working on ERP modules and AI-powered e-commerce platforms to improve operational efficiency and user engagement. Integrating backend services using MERN Stack technologies (MongoDB, Express.js, React.js, Node.js). Designing and consuming REST APIs for frontend and mobile application integration. Improving application performance, scalability, and backend workflow automation. Participating in feature development, testing, database integration, and deployment processes. Technologies Skills

Artificial Intelligence, Machine Learning, MERN Stack, Python, Node.js, MongoDB, Express.js, React.js, REST APIs, NLP, SQL, Automation Systems, Backend Development

SKILLS

Programming: Python, R programming, javascript, MERN stack.

Libraries Frameworks: NumPy, Pandas, Matplotlib, Scikit-Learn

Machine Learning: Classification, Regression, Feature Engineering, Model Evaluation

Deep Learning (Basics): Neural Networks, NLP fundamentals

Databases: SQL (MySQL, PostgreSQL)

Tools: Jupyter Notebook, Power BI, Excel

Concepts: Data Cleaning, EDA, Statistics, NLP (TF-IDF, Word2Vec)

TECHNICAL EXPERIENCE

1. Spam Review Detection (ML Project):

Built a machine learning model to detect fake/spam reviews from e-commerce platforms.

Performed text preprocessing (cleaning, tokenization, stop-word removal).

Extracted features using TF-IDF and Word2Vec.

Evaluated model performance using accuracy and precision.

Tools: Python, ML, SQL

2. College Placement Analysis:

Analyzed student placement data across departments and CGPA.

Cleaned and transformed data using Python.

Created dashboards to visualize placement trends.

Tools: Python, Pandas, Power BI, Excel.

3. Smart Bus Pass System (Web Application):

Developed a web-based system to digitize the traditional bus pass process.

Replaced physical bus passes with a secure digital solution.

Designed a user-friendly and responsive interface for students and administrators.

Tools: HTML, CSS, JavaScript, Python, SQL.

EDUCATION

B.Tech – Computer Science Data Science Vignan Institute of Technology and Science, Hyderabad. (2022 – 2026)

Intermediate (MPC) Gouthami Junior College. (2020 – 2022)

CERTIFICATIONS

NPTEL (IIT Madras): The Joy of Computing Using Python.

HackerRank: Python Programming.

Forge (Tata Group): Data Visualisation.

Simplilearn: Introduction to Flutter.
